

Exploring Models of Leadership Toolkit

## 4. Case studies

## 4. Case studies

These four stories are based on real examples of schools and other partners that were part of the Next Practice in System Leadership project. In some cases, the actual events or sequence of events have been changed or combined in the pursuit of clarity.

These case studies illustrate how different localities or groups of schools and/or agencies have taken different approaches to system leadership, depending on their own context.

The four we have chosen to illustrate are:

1. Family of schools
2. 14–19 partnership
3. Every Child Matters (ECM) (whole-town) approach
4. Hard federation
