Networks, Partnerships, Collaboratives Annual Conference 2006  
22 June – ICC Birmingham

Learning from practice

# Programme guide

Over 70 learning conversations to choose from

## Programme

■ **08.30 Registration and market place open**

Breakfast will be available during this time

An ideal opportunity to view the network exhibitions

Visit the market place to find the latest resources from NCSL and other partners

Enjoy coffee and begin networking with colleagues and associates

■ **10.00 Welcome**

Official opening, innovative and not to be missed!

■ **10.30 Learning conversations – Session 1**

■ **11.45 Learning conversations – Session 2**

■ **13.00 Lunch**

Time to discuss the morning's learning

A delicious buffet will be served during this hour

■ **14.00 Learning conversations – Session 3**

■ **15.00 Plenary**

Input from one of Britain's most entertaining thinkers

■ **16.00 Close**

Welcome to your 2006 guide for the networks, partnerships and collaboratives Annual Conference. This guide outlines the learning conversations taking place throughout the day, enabling you to effectively plan to meet your learning needs.

This guide has been designed to help you search by session (section 1) by theme (section 2) and by network (section 3).

# Session 1 10.30–11.30

## Creativity and pupil learning

Do different ( <i>Cross-phase collaboration</i> )	
Dipping into diversity	46

Write Club 7 ( <i>Literacy and motivation</i> )	
Improving writing...	54

## Balcony collections: Learning differently

CHiLL ( <i>Critical friendship and enquiry</i> )	
Good questions: lights that illuminate and give meaning	62

SEAMS Partnership ( <i>Headteacher learning</i> )	
Can you teach the headteacher?	65

## Enquiry and research

Leading into Learning NLC ( <i>Leading collaborative enquiry</i> )	
Leading enquiry in school networks	31

Primary Schools Learning Network ( <i>Collaborative enquiry</i> )	
Networked learning, what has it changed?	33

SUPER ( <i>Sustaining enquiry</i> )	
A schools university partnership for educational research...	35

Belgrave Learning Network Community ( <i>Enquiry groups for CPD</i> )	
Last year the 'Learning Cube' – this year the 'Rubric'!	25

## Balcony collections: Mathematics

Yorkshire Triangle ( <i>Collaborative enquiry</i> )	
Enquiry that meets the target!	72

Teacher of the Future – Sandwell ( <i>Use of technology in learning</i> )	
Transforming learning through the use of new technologies	66

## Pupil voice and challenging situations

Pendle Small Schools ( <i>Creative MFL</i> )	
Le Français avec l'e-ours	17

Winsford Education Partnership ( <i>ECM</i> )	
Every Child Matters – the children's view	23

### Creativity and pupil learning

Wirral Literacy Learning Network ( <i>Creative literacy</i> )	
Excite to write	53

Da Vinci ( <i>Literacy through arts and creativity</i> )	
Creativity breeds success!	45

### Community partnerships

Success@ Networked Learning Community ( <i>Parental involvement</i> )	
Families And Schools Together – FAST	60

Bransholme Networked Learning Community ( <i>Inter-agency</i> )	
Wot ya gonna do now, sir?	56

### Transition and sustainability

Wakefield Catholic Partnership ( <i>Collaborative CPD</i> )	
From acorn to oak: nurturing and sustaining partnership	5

Next Practice ( <i>Leading beyond the school, next practice</i> )	
Beyond networks: new models of leadership...	4

### System leadership

Southampton Learning for Leading ( <i>Partnership with local authority</i> )	
Partnership working	41

Collaborating in a Village Schools Network ( <i>Small schools</i> )	
It's teachers who make a network a learning network!	37

### Keeping connected

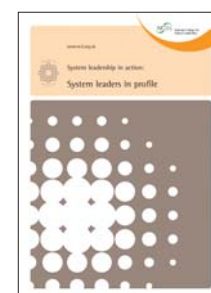

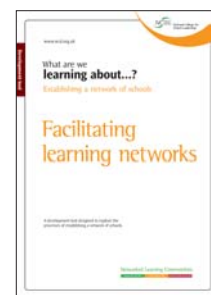

Leadership Learning in Sandwell ( <i>Collaborative enquiry</i> )	
Enquiry based learning: essential for network learning	8

Southend Excellence Cluster ( <i>Engaging staff</i> )	
How to organise a partnership conference	10

### Pupil voice and challenging situations

University of Wolverhampton/NLG ( <i>Schools in complex and challenging circumstances</i> )	
Collaboration in complex and challenging circumstances...	21

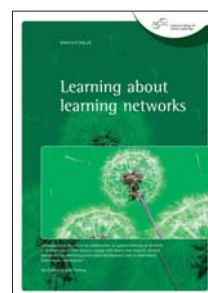

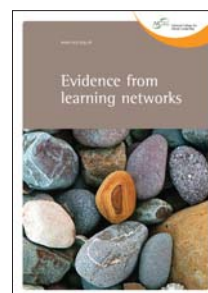

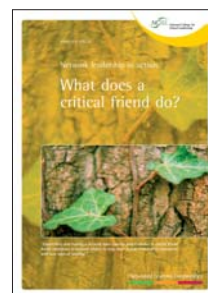

Bedfordshire Schools Improvement Partnership ( <i>Learning partners</i> )	
Students: the bane of your classroom or...	13

# Session 2 11.45–12.45

## Creativity and pupil learning

HaTS (Halton Thinking Schools) ( <i>Collaborative enquiry for learning</i> )	
Thinking tools for thinking schools	47

Merging Minds Innovations and Excellence Cluster, Melbourne, Victoria, Australia ( <i>Motivating disengaged pupils in Australia</i> )	
Winning the war on middle years disengagement...	49

## Balcony collections: Learning differently

Partner ( <i>Network simulation</i> )	
Networking for learning: a simulation...	64

Winsford Education Partnership ( <i>Developing leadership</i> )	
Encouraging geese to fly!	71

## Enquiry and research

Gung Ho ( <i>Self-evaluation</i> )	
Using networking to really effect school improvement...	27

Knowsley Secondary Networked Learning Group ( <i>Improving practice</i> )	
Looking in, leading out: teachers and pupils...	30

External Evaluation Team ( <i>External evaluation</i> )	
Learning about Networked Learning Communities...	26

Hartlepool NLC ( <i>Research Lesson Study</i> )	
Research Lesson Study impacting in challenging schools	28

## Balcony collections: Mathematics

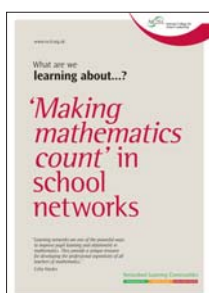

Trafford Primary Strategy Network (TRAPS) ( <i>Problem solving maths</i> )	
Finding all possibilities in maths	67

West Burton Primary Network ( <i>Personalisation</i> )	
Problem solving in mathematics	70

## Pupil voice and challenging situations

Warwickshire Inclusion Network ( <i>Student coaches</i> )	
Student coaches	22

North Nottingham School Improvement Partnership Board (NNSIPB) ( <i>Improving secondary schools in challenging circumstances</i> )	
'Tipping points' in secondary school improvements	16

### Creativity and pupil learning

Organic Learning Project ( <i>Emotional intelligence</i> )	
Kiss the blues good-bye!	51

Bedfordshire Schools Improvement Partnership ( <i>Collaborative CPD</i> )	
Teaching, learning and collaboration	43

### Community partnerships

Salford Excellence in Cities ( <i>Sustaining EiC</i> )	
Learning through collaboration	59

Neighbourhood Renewal Unit ( <i>Neighbourhood renewal</i> )	
Schools: Leading the community?	58

### Transition and sustainability

Wigan WOWS Link to Learn ( <i>Unfunded networks</i> )	
Meeting the challenge of sustaining successful...	6

Ealing Transition Network ( <i>Tackling transition across an authority</i> )	
Explosion or arrow? Primary-secondary...	3

### System leadership

Leading into Learning NLC ( <i>Network leadership</i> )	
Network leadership – the good, the bad and the ugly	39

Lancashire's Learning Networks ( <i>Local authority support for networks</i> )	
Effective networking between schools and other partners...	38

### Keeping connected

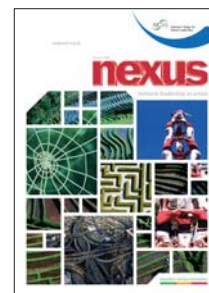

Polestar Education Consultancy ( <i>Critical friends</i> )	
Learning from listening – a process for...	9

Think First NLC ( <i>Virtual Learning Environments</i> )	
Getting into a good Moodle! Experiments in virtual learning.	12

### Pupil voice and challenging situations

Sevenoaks (STAG) ( <i>Learning walks</i> )	
Pupil power!	18

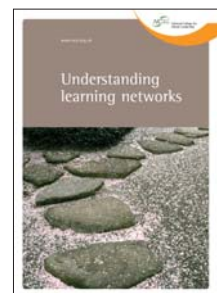

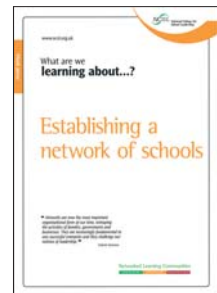

Bolton Pastoral Network ( <i>Spreading practice</i> )	
Voice and participation rule ok!	14

**Network name**

Birmingham Education Authority

**Title**

Does it have to be like this sir?

**At a glance**

Creative yr 7 curriculum

**Audience**

Headteachers, inspectors HMI, local authority advisors, ASTs, teaching assistants/learning mentors

**Key question**

How might we restructure the year 7 curriculum to give our children a better start to their secondary education?

**Key words**

Collaborative enquiry, learning about pupil learning

**Activity**

The session will be led by two head teachers from very different schools. They will share their work in progress, the unexpected as well as the more predictable outcomes.

**Context and background**

We have been working with Creative Partnerships, testing alternative ways of teaching and organising the year 7 curriculum.

**Gift**

Participants will learn about a range of practical strategies to counter the current norm in secondary schools: '25 hours x 13 unconnected subjects x 13 different teachers'.

**Notes/contacts**

## Session 3

## Network name

CHiLL, Organic and Winsford NLCs (co-hosting)

## Title

The after-life

## At a glance

Sustaining networks post NLG

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders

## Key question

What are the future funding opportunities to sustain networks?

## Key words

System leadership, self-evaluation, network structures

## Activity

Leaders from three networks who have been involved with reshaping the future of their respective groups will host a question and answer session on options for sustainability.

## Context and background

These three networks have allocated time to reshaping their groups, reviewing the vision and establishing funding solutions so that the networks will continue to support collaborative leading and learning in the future.

## Gift

Ideas and possible models for sustaining networks in the future.

## Notes/contacts

## Session 2

## Network name

Ealing Transition Network

## Title

Explosion or arrow? Primary-secondary transition in a London borough

## At a glance

Tackling transition across an authority

## Audience

Network facilitators, co-ordinators, co-leaders, local authority advisors

## Key question

How can we develop the concept of a 'single learning community' as the key for primary-secondary transition across a whole local authority?

## Key words

Collaborative enquiry, partnership working and community leadership, CPD

## Activity

The project co-ordinator, a primary and a secondary transition manager will re-enact some of the exercises we used to break down barriers in Ealing. We will share some materials and some of our discoveries and subsequent actions. We will raise and take questions in an interactive session.

## Gift

'Transition News' and hard copies or CDs of our publications and tools.

## Context and background

We have built up cross-phase partnerships, relationships and activities across our authority by investing in 'transition managers'. They have received funding, INSET and an opportunity to develop more effective transition through a three year programme (now at the end of year two) funded by London Challenge.

## Notes/contacts

## Session 1

## Network name

Next Practice pilot project (Innovation unit)

## Title

Beyond networks: new models of leadership beyond a single institution

## At a glance

Leading beyond the school, next practice

## Audience

Headteachers, leaders within networks, local authority personnel

## Key question

What models of leadership and governance across localities will enable us to take practice to the next level?

## Key words

Network leadership, system leadership, leadership, governance, partnership working and community leadership

## Activity

Short presentation and active conversation.

## Gift

A recently commissioned tool for exploring leadership and governance possibilities across boundaries.

## Context and background

The DfES Innovation Unit sponsored NLCs and is now working with NCSL to trial radical models of leadership beyond organisational boundaries. Many new frontiers require a 'system' approach to leadership, including networks, federations, ECM, 14-19 provision and education other than school. What are these models and how do they differ for different purposes and contexts?

## Notes/contacts

**Network name**

Wakefield Catholic Partnership

**Title**

From acorn to oak: nurturing and sustaining partnership

**At a glance**

Collaborative CPD

**Audience**

Headteachers, network facilitators, co-ordinators, co-leaders

**Key question**

How did our partnership evolve? What is our impact, how do we sustain and grow?

**Key words**

Network communications strategy, subject networks, network structures

**Activity**

Members of the partnership will hot-seat the key milestones of our journey. We will share how the seeds of partnership were sown, our current practice and developments and the fruits we have harvested. We will invite questions to support or challenge our thinking.

**Gift**

A 'commitment pebble' inscribed with words that are the key ideas underpinning our own partnership, to take to your own network.

**Context and background**

We are a group of nine catholic primary schools spread geographically but with shared values. We work in partnership, sharing and growing together. Our shared focuses are collaborative CPD, ethos into practice through creativity, transitional support, developing shared approaches to learning and teaching to raise standards.

**Notes/contacts**

## Session 2

## Network name

Wigan WOWS Link to Learn

## Title

Meeting the challenge of sustaining successful collaborative activity over time

## At a glance

Unfunded networks

## Audience

Network facilitators, co-ordinators, co-leaders, local authority advisors

## Key question

How do learning networks sustain successful activity which makes a difference over time?

## Key words

Self-evaluation, network structures

## Activity

We will be inviting participants to engage with some of the material that we have helped NCSL to develop around the issue of sustainability.

## Context and background

Cohort 2b Networked Learning Communities joined the programme in the Spring of 2004 without the NCSL funding provided to the other cohorts. Our network along with the other 2b networks met the challenge of no central funding from the outset and our collective learning from that experience has informed much of NCSL's work on 'What are we learning about sustaining a learning network'.

## Notes/contacts

**Network name**

Fast Track Online Community

**Title**

Is online learning different from learning online?

**At a glance**

Online learning

**Audience**

Network facilitators, co-ordinators, co-leaders, E-learning facilitators, ASTs

**Key question**

Are there unique characteristics of online learning and how can they be developed?

**Key words**

Network communications strategy, system leadership, learning about pupil learning

**Activity**

A module writer and teachers who have worked through online learning modules will both report back on and explore further the potential of online learning.

**Gift**

We hope to provide a CD, featuring our first online learning module and demonstrating the model we have used.

**Context and background**

In our community, we are developing online learning for the first time. We are suggesting that collaborative learning, where you learn from your peers rather than from a tutor, is a pedagogic shift that is worth investigating.

**Notes/contacts**

## Session 1

## Network name

Leadership Learning in Sandwell

## Title

Enquiry based learning: essential for network learning

## At a glance

Collaborative enquiry

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders

## Key question

How do we ensure adults are really learning from their network activity and their learning has impact on pupil achievement?

## Key words

Collaborative enquiry

## Activity

A participative group activity will follow a short presentation.

## Gift

A framework/toolkit for enquiry based learning.

## Context and background

Network enquiry groups have been established across our local authority.

## Notes/contacts

## Session 2

## Network name

Polestar Education Consultancy

## Title

Learning from listening – a process for success in school collaboratives

## At a glance

Critical friends

## Audience

Network facilitators, co-ordinators, co-leaders, local authority advisors

## Key question

How can we strengthen our collaborative work by engaging with an external 'voice'?

## Key words

Network communications strategy, subject networks, network structures

## Activity

School leaders and a professional consultant will host an interactive dialogue, identifying the conditions which enable a demanding but positive external voice to be accepted as part of a collaborative. You will be encouraged to consider how you might best structure your collaborative to engage with a critical friend.

## Gift

Materials will be available for participants to enable them to continue the dialogue within their own network following the conference.

## Context and background

The best networks are founded and secured on deep-level values and strong relationships. Many school collaboratives have of course established and maintained good relationships. However sometimes people are unwilling to place regard for network partners at risk and there can be a lack of robustness or challenge in professional dialogues.

## Notes/contacts

## Session 1

## Network name

Southend Excellence Cluster

## Title

How to organise a partnership conference

## At a glance

Engaging staff

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders

## Key question

How do you raise awareness of the key values and aims of your partnership with all staff?

## Key words

Network communications strategy, collaborative enquiry, partnership working and community leadership

## Activity

We will host a question and answer session focusing on the way we organised our successful conference for 1600 delegates in Southend and its outcomes.

## Gift

Brochures and DVDs

## Context and background

We have a large partnership of 28 schools and, while some key staff and headteachers are engaged, it is difficult to engender a sense of community amongst all staff in all institutions.

## Notes/contacts

**Network name**

Tarleton, Ormskirk, Banks and Aughton (TOBA)

**Title**

Sharing VLE, CMS, VC and WIKI for future learning

**At a glance**

Technology for teaching and learning

**Audience**

Network facilitators, co-ordinators, co-leaders, E-learning facilitators

**Key question**

How will sharing ICT opportunities impact on raising standards in teaching and learning?

**Key words**

Network communications strategy, pupil involvement, subject networks

**Activity**

ICT co-ordinators, researchers, co-leaders and children will host a discussion about how collaboration has benefited our developments in ICT. We will show examples of our work and provide opportunities to share in our future developments. The activity is intended to enable new partners to become involved in our ICT developments.

**Gift**

Our gift will be an information sheet that will encourage participants to work with us on future projects.

**Context and background**

We are developing a wide range of ICT learning opportunities, virtual learning environments, content management systems, video conferencing, and WIKI with and on behalf of adults and pupils to raise standards in both teaching and learning.

**Notes/contacts**

## Session 2

## Network name

Think First NLC

## Title

Getting into a good Moodle! Experiments in virtual learning.

## At a glance

Virtual learning environments

## Audience

Network facilitators, co-ordinators, co-leaders, learning facilitators

## Key question

How can practitioners and pupils use virtual learning environments to share and improve teaching and learning and sustain networked learning?

## Key words

Network communications strategy, pupil involvement, collaborative enquiry

## Activity

Colleagues from our network will tell the story of our experimentation with virtual learning environments. They will then host a session on the enablers and barriers associated with using VLEs to support networked learning.

## Gift

We have developed a network guide to using virtual learning environments featuring some practical advice on setting up VLEs and on engaging network colleagues in their use.

## Context and background

Originally a geographically dispersed NLC, our schools are being drawn into more locality-based networks. We therefore identified a need to find mechanisms to sustain network activity and learning alongside face to face events. We also wanted to extend our pupil involvement, AfL and 'learning journey' developments using e-learning and VLEs.

## Notes/contacts

## Session 1

## Network name

Bedfordshire Schools Improvement Partnership

## Title

Students: the bane of your classroom or the best CPD you will ever get?

## At a glance

Learning partners

## Audience

Headteachers, other

## Key question

How do students engage in Students as Learning Partners in Bedfordshire?

## Key words

Pupil involvement, CPD

## Activity

This will be a highly interactive and thought provoking session, part of which will be led by students who have participated in Students as Learning Partners.

## Gift

A greater understanding of how Students as Learning Partners works and how to go about embarking upon such a project, from recruitment and training through to observation and feedback.

## Context and background

We strive to involve students in all aspects of their education. Engagement in 'Students as Learning Partners' gives students a better understanding of and a greater input into teaching and learning. It helps them to express their views and to make more effective feedback to staff.

## Notes/contacts

## Session 2

## Network name

Bolton Pastoral Network Voice and participation rule ok!

## Title

Voice and participation rule ok!

## At a glance

Spreading practice

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders

## Key questions

How do you move a networked learning community to scale?

## Key words

Pupil involvement, self-evaluation

## Activity

Four members of the network will host an interactive presentation and a Q&A session based on the different ways that they have used pupil voice and participation. This will include conferences, forums, participation standards and SEFs. We will share our ideas and resources.

## Gift

Handouts and examples of our work, ideas for Ofsted: friendly approaches to voice and participation.

## Context and background

We have established our network in Bolton but would like to develop the knots and threads in the borough and ensure that the network is on everyone's agenda in terms of funding and credibility.

## Notes/contacts

## Session 3

## Network name

Learning and Inclusion for Everyone (LIFE)

## Title

*Every Child Matters: give them ALL a voice.*

## At a glance

SEN inclusion

## Audience

Headteachers, teaching assistants/learning mentors

## Key question

How do you ensure that you are listening effectively to the voice of ALL your pupils – including those with special educational needs?

## Key words

Pupil involvement, collaborative enquiry

## Activity

We will start with a 'selective hearing test'! We will then share our progress, giving a flavour of the range of strategies we have explored. We will use workshop activities to engage with participants. You will both learn from and contribute to the package of training and support materials under development.

## Gift

Attendees will be invited to leave an address so that we can send you the final draft of the booklet on enhancing pupil voice for SEN pupils as soon as it is complete. You will also be able to take some sample materials away with you on the day.

## Context and background

We have been researching strategies for facilitating pupil voice for all the pupils in our schools, which are for children with severe or profound learning difficulties and/or with autistic spectrum disorders. We are working to refine an outreach package for use with SEN pupils in mainstream schools.

## Notes/contacts

## Session 2

## Network name

North Nottingham School Improvement Partnership Board (NNSIPB)

## Title

Tipping points' in secondary school improvements

## At a glance

Improving secondary schools in challenging circumstances

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders, inspectors HMI, local authority advisors, HEI partners

## Key question

What has been learnt from three years of partnership working in three schools in challenging circumstances?

## Key words

Pupil involvement, system leadership, self-evaluation, other

## Activity

A presentation of some case studies, approaches to evaluation and an opportunity for general discussion on secondary school improvement work built around the partnership's experience.

## Context and background

There have been funded initiatives common to all schools as well as individual school-based developments. The work of the schools in contextualising the common initiatives and identifying their specific impacts has proved a learning process for all.

## Gift

A case study booklet will be provided for all participants.

## Notes/contacts

## Session 1

## Network name

Pendle Small Schools

## Title

Le Français avec l'e-ours

## At a glance

Creative MFL

## Audience

All

## Key question

How can we develop another curriculum area?

## Key words

Pupil involvement, CPD

## Activity

Our research programme has developed our use of non teaching staff. A teaching assistant and a school secretary will demonstrate our innovative method of introducing a modern foreign language into the curriculum. Through this process we are also able to capture and develop another area of leadership in our schools.

## Gift

We have compiled a teaching programme for French for the non-specialist, be it a teacher or teaching assistant. It is fun to deliver – and receive – with the added twist of a creative curriculum link.

## Context and background

Through pupil collaboration we have developed a creative curriculum which has inspired and motivated adults and children to develop their learning capacity – so why not introduce another language?

## Notes/contacts

## Session 2

## Network name

Sevenoaks (STAG)

## Title

Pupil power!

## At a glance

Learning walks

## Audience

Headteachers, teaching assistants/learning mentors

## Key question

How far can we develop pupil voice?

## Key words

Network communications strategy, pupil involvement

## Activity

A head teacher, a teacher and our co-ordinator will host the learning conversation. They will share their personal experiences of the success of pupil voice through our council and learning walks. Through discussion and activity they will provide participants with the tools to set up their own pupil council and learning walks.

## Context and background

We have established a STAG network pupil council. Through this council we have had the opportunity for pupils to have a voice. They have visited other schools through pupil learning walks and they have seen real changes as a result. Our pupils are motivated and have enjoyed developing their leadership skills.

## Gift

Our pupils have redesigned our pupil learning walks booklet which they wish to share with you.

## Notes/contacts

## Session 3

## Network name

Tweedmouth Learning Community

## Title

Pupil voice: give them a conference

## At a glance

Pupil conference

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders

## Key questions

What are the benefits of a cross network pupil voice conference?

## Key words

Pupil involvement, network structures, learning about pupil learning

## Activity

Learn about hosting a pupil voice conference – warts and all – in no-nonsense easy teacher speak!

## Gift

A CD ROM detailing the rationale behind our pupil voice conference, how we organised it, pupils' responses and video clips of the actual event.

## Context and background

We took the plunge with our first pupil voice conference involving all our schools and over 100 children in 2005. This year we held another conference, jointly facilitated by teachers and sixth form pupils, held at a local rugby club. We are hoping for even greater things next year and intend to keep this event going long after our funding runs out.

## Notes/contacts

## Session 3

## Network name

Writing IT Together

## Title

Writing IT together

## At a glance

Literacy through ICT

## Audience

Lead learners, teaching assistants/learning mentors

## Key questions

How can we involve pupils more deeply in our collaborative enquiries into ways of improving their writing quality?

## Key words

Pupil involvement, collaborative enquiry, learning about pupil learning

## Activity

Representative teachers from three of the collaborative projects will present their work so far and then host a Q&A session, identifying successful research methods and strategies. We hope participants will both challenge and contribute to our collaborative enquiry model to extend children's achievements in writing.

## Gift

We have compiled a brochure showing how we have developed our projects and identifying particularly useful approaches that have had impact on ourselves as teachers as well as on our pupils' levels of attainment.

## Context and background

Collaborative enquiry is our central vehicle for adult learning. We have agreed several focuses, all aimed at improving the quality of children's writing through creative use of ICT, for example a networked radio station. We have also developed strategies to involve the children themselves in researching the impact of our interventions.

## Notes/contacts

**Network name**

University of Wolverhampton/NLG

**Title**

Collaboration in complex and challenging circumstances: what works? What's worth doing?

**At a glance**

Schools in complex and challenging circumstances

**Audience**

Practitioners, researchers, local authorities

**Key question**

What are the key barriers that schools in challenging circumstances need to overcome to collaborate effectively?

**Key words**

Collaborative enquiry, network communications strategy, partnership working and community leadership

**Activity**

Presentation of research evidence and a group discussion. The session will set out to explore the issues of what forms of collaboration are most beneficial to schools in complex and challenging circumstances and the areas that are best left to the school itself to address or with the support of the local authority.

**Gift**

Synopsis of recent research into collaboration.

**Context and background**

Until recently Ofsted advised schools in urban contexts to concentrate their efforts within school rather than linking to other initiatives. Several initiatives, including EAZs, EICs and NLCs, have demonstrated benefits to collaboration though some scepticism remains as to whether collaborative approaches are appropriate for schools in challenging circumstances.

**Notes/contacts**

## Session 2

## Network name

Warwickshire Inclusion Network

## Title

Student coaches

## At a glance

Student coaches

## Audience

Lead learners, all

## Key questions

How can students' leadership qualities be improved to help improve the learning of others through coaching?

## Key words

Pupil involvement, CPD, learning about pupil learning

## Activity

A teacher and some students will explain how they use coaching and the types of training which is given to deliver it. A description of what other schools in the network have done with coaching will also be given.

## Gift

A DVD that we have developed to support the training of students and to meet some of their challenges as coaches. You will also receive a list of other coaching activities from the other schools with contact details.

## Context and background

All schools in the network have had high quality training in the mysteries of coaching from Mike Hughes. All schools have then developed different ways of delivering coaching as a way of raising achievement in their own schools.

Winsford Education Partnership

**Title***Every Child Matters* – the children's view**At a glance**

ECM

**Audience**

All

**Key Question**

How can we develop children's involvement and influence?

**Key words**

Partnership working and community leadership, pupil involvement

**Activity**

The conversation will be led by the deputy head teacher of Hebden Green community special school with four pupils from Winsford schools. They will explore how they have developed their work from wishes captured on raindrops!

**Gift**

We have prepared a report capturing the enquiry methods used and offering an analysis of the wishes of children in Winsford against the five headings from *Every Child Matters*.

**Context and background**

We are developing pupil involvement across all 17 schools in our town and are enabling pupils to engage with and begin to influence key decision makers on our county, borough and town councils.

**Notes/contacts**

## Session 3

## Network name

Tyndale Tisbury

## Title

International opportunities for networking

## At a glance

International collaboration

## Audience

E-learning facilitators, all

## Key question

How can networks sustain themselves and move forward? What are the international opportunities for networking?

## Key words

Collaborative enquiry, learning about pupil learning, other

## Activity

We will give some brief information about partnerships established to date and then showcase some of the international opportunities that are available, providing information for the audience to take away about such partnerships.

## Gift

Summaries of current projects within the network will be available along with information from the British Council and other international bodies which encourage collaboration at this level.

## Context and background

Our network comprises 11 schools from two authorities about 100 miles apart. After discussing sustainability, some of our schools decided to join with international partners in a range of projects. This provides an exciting opportunity for network members to collaborate at a new level whilst retaining some of our established partnerships.

## Notes/contacts

**Network name**

Belgrave Learning Network Community

**Title**

Last year the 'Learning Cube' – this year the 'Rubric'!

**At a glance**

Enquiry groups for CPD

**Audience**

Headteachers, lead learners

**Key question**

Focusing collaboratively on a common issue, what effect can a diverse group of nine schools have on adult learning and pupil achievement?

**Key words**

Collaborative enquiry, CPD

**Activity**

Five teachers from different schools will host a Q&A session to demonstrate how whole-network CPD resulted in the development and implementation of the 'Belgrave Rubric'. The session will highlight the power of the 'Rubric' as well as the challenges it posed.

**Gift**

Participants will be able to take a copy of the 'Rubric' and narrative outlining how it was developed, as well as new learning from the learning conversation itself.

**Context and background**

We have established collaborative enquiry groups as a vehicle for adult learning, following a network in-service day. We are building leadership capacity through a huge investment in our lead learners involved in this enquiry process.

Gung Ho

## Title

Using networking to really effect school improvement and provide great evidence for your SEF!

## At a glance

Self-evaluation

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders

## Key question

How far can networks be effective in bringing about true self-evaluation and effecting real and lasting school improvement?

## Key words

Self-evaluation

## Activity

We will first explain the background to the project and identify the important 'before you start' issues! The model will then be shared and explained. A Q&A session will aid your understanding of the challenges and the benefits to using such a self-evaluation model.

## Gift

An A4 sheet which clearly outlines the model and provides step by step instructions on how to use this model across any network.

## Context and background

Our network has established a trust mechanism called partnered walks which really built relationships across the network. From this we have developed an easily replicable model of self-evaluation and school improvement by working across the network. This model is now being shown to head teachers in a number of local authorities.

## Notes/contacts

**Title**

Leading enquiry in school networks

**At a glance**

Leading collaborative enquiry

**Audience**

Network facilitators, co-ordinators, co-leaders, lead learners

**Key question**

What are the challenges faced in establishing and leading enquiry in school networks? What does having a network dimension add to the enquiry?

**Key words**

Collaborative enquiry, network structures

**Activity**

In the learning conversation you will have an opportunity to hear about the emerging ideas about successfully leading enquiry in school networks. If you are new to this, you will have an opportunity to raise questions. If you have been doing this for a while, you will have an opportunity to offer your reflections.

**Gift**

Copies of a new publication, 'Leading enquiry in school networks'.

**Context and background**

Many Networked Learning Communities have been engaging with enquiry in their work. Lessons that have been learned within networks have been brought together with research in the field in a new publication in the Network Research Series.

**Notes/contacts**

## Network name

NCSL

## Title

What does research tell us about networks?

## At a glance

Learning from NLCs

## Audience

Network facilitators, co-ordinators, co-leaders, all

## Key questions

What has NLG research found out about networks? How do these findings relate to your experience of networks? What are the implications for policy and the wider system?

## Key words

Pupil involvement, network structures, other

## Activity

Come and discuss our research findings. Explore how they relate to your own experience, and what the implications might be for others.

## Gift

Research summaries of key findings.

## Context and background

Throughout the development of the Networked Learning Communities programme, a team of researchers has tracked and examined practice as it has developed. As the programme comes to its conclusion, the team have produced five key research papers which we would like to discuss.

## Notes/contacts

## Network name

Primary Schools Learning Network (PSLN)

## Title

Networked learning, what has it changed?

## At a glance

Collaborative enquiry

## Audience

All

## Key question

How have practices changed during our lives as Networked Learning Communities?

## Key words

Collaborative enquiry, CPD, learning about pupil learning

## Activity

This learning conversation will look at how practices have evolved through learning from and about networked inquiry. We will consider three forms of learning, based upon Cochrane-Smith and Lytle (1999): learning in practice, learning for practice and learning about practice.

## Gift

Attendees will be shown examples of networked inquiry reports and provided with details of how to access them via the internet.

## Context and background

PSLN is a primary schools learning network established four years ago and currently comprises eight active schools. Each school identifies a group of inquirers (in some cases the whole staff) who then work together and with staff from other schools on developing areas of interest.

## Notes/contacts

SEAMS Partnership

## Title

Asking questions – from practice to learning

## At a glance

Collaborative enquiry

## Audience

Headteachers, network facilitators, coordinators, co-leaders, teaching assistants/learning mentors

## Key question

Is enquiry a catalyst for change?

## Key words

Pupil involvement, network structures learning about pupil learning

## Activity

The cluster manager and three school coordinators (primary and secondary) will share their experiences of setting up school enquiry groups, learning to collaborate and acting as change-makers in their schools. The conversation will use protocols developed over the past three years. It will be a collaborative activity, allowing participants to share their own experiences.

## Gift

Outcomes from the session will be collated, shaped and distributed by email to all participants.

## Context and background

This cross-phase learning network (formerly an EAZ, now an Excellence Cluster) is in its third year. Members of the school enquiry groups have found being enquiry focused in a delivery focused context hugely liberating. The co-ordinators have also developed tools to support each other and to induct new schools.

## Title

Network leadership – the good, the bad and the ugly

## At a glance

Network leadership

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders

## Key question

How does network leadership contrast with school leadership?  
What are the rewards, frustrations and challenges in being a school network leader?

## Key words

Network structures, other

## Activity

We will present some of our effective and successful collaborations. Participants will be given tasks to help consider how collaboration might work in particular settings. We will also explore opportunities for teachers in different contexts to take a lead and responsibility for curriculum innovation.

## Gift

We have prepared a short pamphlet, 'The things we didn't know when we set out on network leadership', which captures the good, the bad and the ugly aspects of the role!

## Context and background

Des Callaghan and John Westwell have been co-leaders of the Leading into Learning NLC for three years. We have reflected on this new form of leadership and now feel we have some understanding of the role, which we would like to explore with others working in a similar role.

## Notes/contacts

## Session 3

## Network name

Next Practice pilot project (NCSL)

## Title

Leadership beyond the single institution: where will it all end?

## At a glance

Leading beyond the school, next practice

## Audience

Headteachers, local authority advisors, leaders within networks

## Key questions

What are the implications for leadership and governance when school leadership extends beyond the single institution?

## Key words

Leadership, governance, system leadership, network leadership, partnership working and community leadership

## Activity

The session is an opportunity for you to connect with the early learning, to hear about the project and to discuss the difficult and complex issues involved when leadership extends beyond one school. Participants will examine a number of scenarios of governance and leadership in a way which will allow each person to add to the session.

## Gift

An artifact to use with others to stimulate local debate around these issues. A web link to the learning as it emerges during the project.

## Context and background

Networks, federations, the ECM agenda, extended schools – the educational landscape is filling with new forms of governance and leadership beyond the single institution. NCSL, in partnership with the DfES Innovation Unit, is exploring these ‘next practice’ forms of leadership as they develop in several locations over the next year.

**Network name**

Merging Minds Innovations and Excellence Cluster, Melbourne, Victoria, Australia

**Title**

Winning the war on Middle Years disengagement through innovation and excellence: a Middle Years story from Melbourne, Australia

**At a glance**

Motivating disengaged pupils in Australia

**Audience**

Headteachers, all

**Key question**

How can we achieve system-wide improvement of student engagement and learning in the middle years of schooling?

**Key words**

System leadership subject networks, learning about pupil learning

**Activity**

Telling the story of our cluster will challenge and inspire practitioners to share and reflect on their ideas and practice. It was a difficult journey, initially, finding a project that would satisfy the diverse needs of our complex cluster of ten schools.

**Gift**

Hopefully participants will be enriched by the experience of hearing about and discussing a successful project from the other side of the world. We have made significant inroads into addressing the malaise of students in the middle years. It is a universal problem that we need to solve, no matter where we come from.

**Context and background**

Middle Years clusters of schools, both primary and secondary, have been generously funded to trial innovative projects and improve pedagogy. The Merging Minds cluster of ten schools in Melbourne, Australia, is one of many clusters that employ a co-ordinator to drive Middle Years reform over a three year period.

North East Bradford NLC

## Title

Be Creative – Achieve

## At a glance

Creativity and CPD

## Audience

All

## Key question

How can creative media improve attainment?

## Key words

Pupil involvement, CPD

## Activity

We will host a question and answer session on how collaborative CPD can provide robust models for use in schools with the aim of raising achievement. Teachers from both primary and secondary phases will be available to discuss the impact in their schools.

## Context and background

We have established a programme of visual literacy linked to raising attainment with special reference to boys. We are also building the leadership capacity in our network through the carefully planned development of lead learners.

## Gift

A CD-Rom containing useable materials and a documentary of our creative media day.

## Notes/contacts

## Network name

Organic Learning Project

## Title

Kiss the blues good-bye!

## At a glance

Emotional intelligence

## Audience

All

## Key question

What are the positive impacts of developing emotional literacy for pupils and staff on a whole-school basis, using school-to-school and network-to-network strategies?

## Key words

Learning about pupil learning, CPD

## Activity

This will be an interactive workshop, sharing good practice through artwork, photographic images, poetry, role-play, humour and demonstration of practical classroom strategies that are tried and tested by teachers from schools in different settings. We will be sharing our various publications and offering ideas and inspiration on issues of emotional literacy.

## Gift

A practical resource book of ideas and various publications, handouts and examples of good practice which can be used in any classroom very simply and effectively.

## Context and background

There have been dramatic positive benefits for our children and staff through development of emotional awareness and provision of strategies to become emotionally resilient, building self-esteem and improving the ability to develop relationships. Sharing good practice school-to-school has been key through twilight sessions, conferences and residentials.

## Notes/contacts

## Network name

Primary Modern Languages

## Title

Starting modern foreign languages in primary schools

## At a glance

Modern foreign languages at Key Stage 2

## Audience

Headteachers, local authority advisors, e-learning facilitators, ASTs

## Key question

Where to begin with modern foreign languages?

## Key words

Subject networks, learning about pupil learning

## Activity

An interactive discussion about the origin and evolution of our ideas. Team members will talk about resources that have been developed as a result.

## Gift

List of classroom instructions for teachers to use (in French!).

## Context and background

The seven schools in our cluster work closely together and decided to do a modern foreign language project rather than focus on numeracy or literacy. All the teachers in the network felt in a similar position, as their pupils were having tuition from secondary school teachers and they wanted to build on this practice in school.

## Notes/contacts

## Network name

Wirral Literacy Learning Network

## Title

Excite to write!

## At a glance

Creative literacy

## Audience

Headteachers, all

## Key question

How far can creativity in the curriculum impact on standards of children's writing?

## Key words

Collaborative enquiry, subject networks, learning about pupil learning

## Activity

Teachers and a headteacher from our network will demonstrate the work that has been achieved as a result of our enquiry.

## Gift

We will bring the processes and ideas used to engage reluctant writers in our network which could then be transferred to other subjects or settings.

## Context and background

We established our pupil focus group as 'children at risk of underachievement'. We have investigated, through collaboration, the building blocks for writing in terms of creativity and imaginative stimulus, using scaffolds and prompts for children to rehearse and develop their writing confidence and stamina.

## Notes/contacts

## Network name

Write Club 7

## Title

Improving writing with a little help from saints, pyramids and myst

## At a glance

Literacy and motivation

## Audience

Lead learners, teaching assistants/learning mentors

## Key question

How can writing be enhanced by embracing the 21st century curriculum?

## Key words

Pupil involvement, subject networks, CPD

## Activity

A headteacher and two lead learners will lead a question and answer session. We will share practical ideas and successes from our project so far. For example, the power of cross-school planning, the sharing of AST expertise to empower teachers, teaching assistants and children. This should be a highly interactive session.

## Gift

An english pyramid, a pack of lesson plans on how to use myst to enhance all areas of the curriculum, a pack of useful tips for using interactive whiteboards to enhance learning, a brief paper on how moving to learn can enhance children's learning.

## Context and background

We have established collaborative learning at all levels, empowering staff and children. In its first year our network has started to change the learning culture in seven schools, enhancing writing skills in particular. We are also using motivational strategies such as moving to learn and brain gym, and improving the curriculum.

## Notes/contacts

**Network name**

Aspire

**Title**

Aspiration, perspiration and innovation: the keys to an aspirational network

**At a glance**

International links

**Audience**

Headteachers, network facilitators, co-ordinators, co-leaders

**Key question**

How can local schools work together to develop new cultural infrastructure which enhances school and community links?

**Key words**

Collaborative enquiry, partnership working and community leadership, network structures

**Activity**

The development director and one headteacher from the partnership will host a seminar which will focus on professional development, pupil transition and international developments within our partnership.

**Gift**

We will provide a database of contacts, stimuli and research papers which have helped us to develop our networking practices.

**Context and background**

We have established ourselves as a new, independent social enterprise which is able to access new networks, funds and expertise both regionally and internationally. We are currently in the process of developing a number of Comenius partnership projects.

**Notes/Contacts**

**Session 1****Network name**

Bransholme Networked Learning Community

**Title**

Wot ya gonna do now, sir?

**At a glance**

Inter-agency

**Audience**

Headteachers, community workers/leaders

**Key question**

How can the leadership skills of our network be effectively deployed to benefit the inter-agency work in which we are increasingly involved?

**Key words**

Network communications strategy, partnership working and community leadership

**Activity**

Four senior staff will host a question and answer session which will identify the efforts being made to secure good working relationships and strong networking with new partners from other agencies.

**Context and background**

Our city is currently devolving extensive powers and responsibility to seven Area Committees. We have previously established executive coaching as our most powerful vehicle for leadership development. We are aiming to use our acquired skills and experience to support the potential future service delivery scenarios.

**Notes/Contacts**

## Session 3

## Network name

Family Learning Networks

## Title

Family learning networks: empowering parents and pupils

## At a glance

Parent partnerships

## Audience

All

## Key question

How do we empower our parents to support our children's learning and engage in their own learning?

## Key words

Partnership working and community leadership, network structures, other

## Activity

There will be a short presentation followed by a group activity to help participants to share experiences.

## Gift

Network newsletter (broadsheet) and DVD.

## Context and background

We are in the process of developing self-sustaining parent networks in primary schools across Sandwell.

## Notes/contacts

**Network name**

Neighbourhood Renewal Unit

**Title**

Schools: Leading the Community?

**At a glance**

Neighbourhood renewal

**Audience**

Headteachers, network facilitators, co-ordinators, co-leaders, communications officers, primary strategy managers, inspectors HMI, local authority advisors, E-learning facilitators, community workers/leaders, HEI partners, ASTs, lead learners, teaching assistants/learning mentors, all

**Key question**

What does leading in partnership with community leaders mean in practice?

**Key words**

Partnership working and community leadership, other

**Activity**

Community leaders and neighbourhood managers will tell their story and we will explore where there is a meeting of minds and where there are differences to illuminate the process of partnership building.

**Gift**

A briefing setting out the shared goals and mutual benefits that schools and Neighbourhood Management can experience when working in partnership. 'How to' and case studies included.

**Context and background**

Neighbourhood Renewal Partnerships strive to improve outcomes for children and young people, but often find working with schools problematic. NRU has supported an Action Team to explore some of these issues.

**Notes/contacts**

## Network name

Salford Excellence in Cities

## Title

Learning through collaboration

## At a glance

Sustaining EiC

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders

## Key question

How far can the innovation of Excellence in Cities be sustained through collaboration?

## Key words

Partnership working and community leadership, network structures

## Activity

The EiC director and co-ordinator for learning mentors will host a question and answer session on improving through collaborative processes.

## Context and background

We have started to remove barriers to learning by enhanced collaboration. We are building on the foundations of leadership to improve learning.

## Gift

A good practice pamphlet.

## Notes/Contacts

## Session 1

## Network name

Success@ Networked Learning Community

## Title

Families And Schools Together – FAST

## At a glance

Parental involvement

## Audience

Headteachers, community workers/leaders

## Key question

How do we involve parents to raise attainment across all key stages?

## Key words

Learning about pupil learning: other

## Activity

We have invited some of the most powerful speakers about children's education to help deliver our learning conversation... the parents. Our session will include an explanation of our work, led by parent co-ordinators and parents of primary, secondary and special school pupils.

## Gift

The secrets of our success!

## Context and background

Our head teachers meet regularly to discuss issues which arise across the network. This group identified that one major gap was provision for parental involvement. A successful bid for Neighbourhood Renewal funding was made and the story of the FAST team began.

## Notes/Contacts

## Session 3

## Network name

Blackburn with Darwen Action Learning Network

## Title

Walking towards the same goal: networking children and teachers

## At a glance

Learning walks

## Audience

All

## Key questions

How can a network use learning walks to develop pupil voice? What are critical thinking challenges and how can they be incorporated across the curriculum?

## Key words

Pupil involvement collaborative enquiry, learning about pupil learning

## Activity

Participants will be given a presentation of the eight learning walks and will be introduced to the concept of critical thinking challenges.

## Gift

A CD-Rom containing a PowerPoint presentation of the eight learning walks with an accompanying brochure sharing details of networked learning activities. This will include an example of a base team challenge focusing on the development of critical thinking skills.

## Context and background

Staff in our network have benefited greatly from learning walks. Network schools identify good practice which they are happy to share with colleagues from other schools during a morning or an afternoon. Also, following an online pupil survey all lead learners have been trained on how to deliver fun critical thinking challenges.

## Notes/contacts

## Session 1

## Network name

CHiLL

## Title

Good questions: lights that illuminate and give meaning

## At a glance

Critical friendship and enquiry

## Audience

Network facilitators, co-ordinators, co-leaders, all

## Key question

Can we use critical friendship and enquiry to improve practice?

## Key words

Pupil involvement, collaborative enquiry, system leadership, self-evaluation, network structures, learning about pupil learning

## Activity

We will be sharing our research paper, 'Leading enquiry using a critical friend', and hosting an interactive 'questions workshop' between colleagues from our network and conference delegates.

## Gift

A copy of our recent research paper 'Leading enquiry' and a DVD outlining the CHiLL self-evaluation process.

## Context and background

CHiLL network has existed since 1998 and is predominantly concerned with creating better school leaders so providing the capacity to share expertise across our network. Our shared philosophy to seek new ways of thinking, learning and leading means that there is no tension between collaboration and competition.

## Notes/contacts

## Session 3

## Network name

Network G10

## Title

Solving the problem!

## At a glance

Problem solving

## Audience

Lead learners, teaching assistants/learning mentors

## Key question

How can we work collaboratively and share expertise within the network to develop problem solving?

## Key words

Collaborative enquiry, CPD, learning about pupil learning

## Activity

Following a brief introduction of the programme we will demonstrate practical activities from the Talking Maths project.

## Gift

We will provide an overview of the programme and examples of how it is being developed in the learning networks as well as practical strategies for developing problem solving.

## Context and background

Analysis of school data within our network identified problem-solving as an area for development in mathematics. Funding from PNS provided the opportunity to work collaboratively and this has led to the development of projects such as Talking Maths within the network.

## Notes/contacts

## Session 2

## Network name

Partner

## Title

Networking for Learning: a simulation to help you get the most out of your network

## At a glance

Network simulation

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders

## Key question

How can leaders use simulations to help them enhance networking for learning?

## Key words

CPD, other

## Activity

People will be invited to try out the simulation and there will be opportunity for dialogue. This simulation is challenging but fun!

## Context and background

We drew on an extensive research base on effective networking, school improvement and bringing about positive educational change in order to develop and design this simulation.

## Gift

I have compiled a list of FAQs on making best use of the simulation and will also provide some useful background notes.

## Notes/contacts

## Session 1

## Network name

SEAMS Partnership

## Title

Can you teach the headteacher?

## At a glance

Headteacher learning

## Audience

Headteachers, inspectors HMI

## Key question

How do we successfully engage headteachers in learning?

## Key words

System leadership, partnership working and community leadership, self-evaluation

## Activity

Four headteachers (cross-phase) from the network, plus the group's facilitator will explore with other headteachers ways in which headteachers can learn. We will model our successful enquiry process, using participants' own ideas. The conversation will be framed to enable evidence to be collected.

## Gift

The exchange of practice, wisdom and knowledge. An email to all participants, post-conference, of the learning points collected and collated during the conversation.

## Context and background

We are morphing from an EAZ and cluster partnership into a learning network. Our schools share a commitment to a research and enquiry based methodology and an established pattern of inter-school working. We have learned that when headteachers learn together leadership qualities develop more rapidly, communications in school change and connections are different.

## Notes/contacts

## Session 1

## Network name

Teacher of the Future – Sandwell

## Title

Transforming learning through the use of new technologies

## At a glance

Use of technology in learning

## Audience

ASTs, lead learners, e-learning facilitators, headteachers, co-ordinators

## Key question

How can technology transform learning and raise standards?

## Key words

CPD, pupil involvement, learning about pupil learning

## Activity

There will be a short presentation and group activity looking at learning futures. The team will be demonstrating good practice as a result of the work in Sandwell schools.

## Gift

Memory stick

## Context and background

We have an innovative approach to working in schools using technologies to develop teacher confidence and pupil attainment. The team have been looking at innovative ways of using interactive whiteboards, PDAs and Promethean voting systems. Additional NRU funding has been secured to develop this work across three key stages.

## Notes/contacts

**Session 2****Network name**

Trafford Primary Strategy Network (TRAPS)

**Title**

Finding all possibilities in maths

**At a glance**

Problem solving maths

**Audience**

Headteachers, network facilitators, co-ordinators, co-leaders, primary strategy managers, local authority advisors

**Key question**

How have we worked with our partner schools to raise the profile of maths and maths problem solving skills?

**Key words**

Pupil involvement, subject networks, CPD, network structures

**Activity**

Headteachers from three of our schools will explain what we have done so far and showcase the DVD we have made for our partnership.

**Gift**

Examples of brochures for parents to help their children in maths and problem solving.

**Context and background**

We have surveyed our school partners and decided problem solving in maths is a common area of difficulty for our children.

**Notes/contacts**

## Session 3

## Network name

The Beauchamp College

## Title

Two heads are better than one

## At a glance

Improving the learning environment

## Audience

Headteachers, other

## Key question

How can schools and architects work together to provide the best possible learning environment for all learners and help deliver the extended service ethos?

## Key words

Network communications strategy, partnership working and community leadership, other

## Activity

Tom Lyons (GSS Architecture) and Bob Mitchell (Vice Principal, Extended Services, Beauchamp College) will present their experiences of developing a range of learning facilities which many regard as 'state of the art'. There will be opportunity to view many of their projects and some future planned developments.

## Gift

A copy of our campus development brochure as well as the opportunity to view and order our publication: 'Strategies, structures and activities you should see in a quality extended service school'.

## Context and background

At the Beauchamp College we have developed a very strong partnership with an architect who fully understands the importance of designing teaching and learning areas that accommodate the extended schools agenda. He has designed creative and innovative facilities which embrace the theory that all learners deserve the best possible learning environment.

## Notes/contacts

**Session 3****Network name**

Westbourne Primary Learning Network

**Title**

The empty number line: things may get worse before they get better!

**At a glance**

The empty number line

**Audience**

Headteachers, Primary Strategy managers

**Key question**

Are we willing to risk a short-term fall in performance for a longer-term gain in mathematics education?

**Key words**

Subject networks, learning about pupil learning

**Activity**

We hope to engage participants with a challenging session. We will illustrate our presentation with key equipment and discuss the implications for schools.

**Gift**

An agreed calculations policy which will be shared with all stakeholders and will eventually be available on our website. This will indicate at what ages we could expect various strategies to be taught.

**Context and background**

Our local authority has issued guidance on the restructuring of number learning. This is based on the sound evidence from the Netherlands where, through the use of the Empty Number Line, their performance has become amongst the best in Europe. Teachers from our pyramid have visited schools in the Netherlands to experience their achievements at first hand.

**Notes/contacts**

## Session 2

## Network name

West Burton Primary Network

## Title

Problem solving in mathematics

## At a glance

Personalisation

## Audience

ASTs, lead learners, co-ordinators, teaching assistants/learning mentors

## Key question

How do we promote the development of personalisation in mathematics?

## Key words

Subject networks, learning about pupil learning

## Activity

We will present a maths lesson that promotes personalisation and deep learning of concepts. Participants will be encouraged to contribute to the discussion and identify the key elements within this personalised maths lesson.

## Context and background

All our schools have found that we have a common issue of children not being able to apply their knowledge outside of the context of maths lessons or to effectively solve problems.

## Gift

Following the group discussion participants will have a clearer idea of how personalisation can be applied in maths lessons in their setting.

## Session 2

## Network name

Winsford Education Partnership

## Title

Encouraging geese to fly!

## At a glance

Developing leadership

## Audience

Headteachers, lead learners

## Key question

How can we develop new patterns of leadership?

## Key words

Collaborative enquiry, self-evaluation, learning about pupil learning

## Activity

Lucy will lead a discussion on how her leadership skills have developed across the network since she became an NQT and how this fits in with our network as a whole.

## Gift

Report

## Context and background

Winsford Education Partnership comprises a cross-phase mix of 17 schools. We have leadership groups covering all the schools which are predominantly curriculum orientated. One of these is a science group of which Lucy Jones is the leader.

## Notes/contacts

## Session 1

## Network name

Yorkshire Triangle

## Title

Enquiry that meets the target!

## At a glance

Collaborative enquiry

## Audience

Headteachers, network facilitators, co-ordinators, co-leaders, Primary Strategy managers

## Key question

How can network enquiry lead to accelerated progress in mathematical achievement?

## Key words

Pupil involvement, collaborative enquiry

## Activity

Come and try the 'Sands of Time' from a pupil perspective, understand the principles of 'Countdown' and explore the power of the process. Help us to answer the questions; 'How do we spread the message across other networks?' and 'Could the process have impact in other subject areas?'

## Gift

Our model of network enquiry and sharing good practice – five steps to successful enquiry which impacts on achievement. Details of our product.

## Context and background

We have established collaborative enquiry as our central and most powerful vehicle. Our recent focus has been underachievement in maths, starting with rapid recall of multiplication facts through 'Sands of Time'. This initiative has been followed by 'Countdown' and the results show a dramatic impact – hopefully SAT results will reflect this!

## Notes/contacts

# Information briefings

## Hall 1 (Auditorium)

### Session 1 10.30-11.30

#### Primary National Strategy Learning Networks

Karen Feeney, Senior Regional Adviser, Primary National Strategy, will share findings from an External Evaluation of the 1,500 Primary Strategy Learning Networks and Mathematics Centres that have been established in approximately 9,000 schools. The briefing will outline implications for the role of networking in the use of the renewed literacy and mathematics frameworks, and invite participants to consider how networks can sustain activity and the wider application of networks to support collaborative learning. The briefing may be of particular interest to teachers, headteachers, governors and local authority representatives, but all are welcome to attend and receive a copy of the summary of findings from the External Evaluation of PSLNs.

### Session 2 11.45-12.45

#### Education Improvement Partnerships and Federations – DfES perspectives

Neil Remsbery, DfES Partnerships and Federations Unit, will present a briefing outlining how the policy and practice of Education Improvement Partnerships (EIPs), Federations and Trust schools fit within the broader context of promoting collaborative working between schools and with other partners. This briefing may be most suitable for headteachers or other leaders interested in developing collaborative or partnership arrangements, but all delegates who attend will gain a better understanding of what is happening in terms of schools' collaborative working and what options are open to schools wishing to collaborate further with others.

### Session 3 14.00-15.00

#### Specialist Schools and Academies Trust

Sue Williamson, Director of Leadership and Innovation Networks at the Specialist Schools and Academies Trust, will present a briefing focused on personalised learning, the Development and Research networks, student voice, leadership programmes and iNet, the Trust's international arm. Sue and her team will provide an insight into how these developments will encourage powerful innovation networks, distributive leadership and outstanding outcomes for students in all settings. Practitioners, headteachers and academics alike will find this briefing relevant to their work, and will be able to take away information about SSAT conferences and events for the topics covered.

# Create an enquiry

Eg. If you and your colleagues are interested in conducting an enquiry during the day on one particular subject, you may wish to cover several learning conversations between you. We have grouped the conversations below to enable you to do this.

## Challenging circumstances

16, 21

## Coaching

22

## Collaborative enquiry

8, 15, 17, 24, 25, 27, 28, 29, 30, 31, 33, 35, 36, 43, 47, 53, 62, 72

## CPD/adult learning

3, 5, 25, 28, 29, 32, 50, 64

## Creativity

1, 17, 43, 44, 45, 50, 51, 53

## Critical friendship

9, 32, 35, 62

## *Every Child Matters*

15, 23, 56, 58, 60

## Emotional intelligence

51

## Engaging all staff

10

## Governance

4, 40

## ICT and e-learning

7, 11, 12, 24, 66

## International networking

20, 49, 55

## Leadership

39, 40, 42, 50, 55, 64, 65, 71

## Learning about pupil learning

34, 37, 44, 45, 46, 47, 48, 53, 63, 69

## Mathematics

63, 66, 67, 69, 70, 72

## Network communications strategy

10, 11, 18

## Network leadership

3, 4, 32, 39, 55, 64, 71

## Network structures

5, 9, 31, 32, 59

## Parent partnership

57, 60

## Partnership with local authorities

3, 38, 41, 69

## Partnership working and community leadership

10, 21, 23, 44, 46, 55, 56, 57, 58, 59, 60, 65, 68

## Personalisation

70

## Pupil involvement/pupil voice

12, 13, 14, 15, 17, 18, 19, 22, 23, 24, 32, 49, 61

## Pupil learning

1, 7, 11, 13, 30, 33, 47, 48, 49, 52, 54

## Research

26, 32

## Research lesson study

28

## Self-evaluation

6, 9, 14, 16, 27, 30, 36, 45, 63

## Study visits

18, 61

## Subject networks/curriculum

1, 17, 24, 45, 52, 54, 66, 67, 70, 72

## Sustainability

2, 5, 6, 20

## System leadership

2, 4, 37, 38, 39, 40, 41, 42, 46, 56, 65

## Transition

1, 3
