Professional Learning Communities: source materials for school leaders and other leaders of professional learning

Assessing the impact of your professional learning community

Louise Stoll, Ray Bolam, Agnes McMahon, Sally Thomas, Mike Wallace, Angela Greenwood and Kate Hawkey

Introduction

A critical but sometimes neglected process in creating and sustaining a professional learning community (PLC) is assessing the impact of your efforts and feeding this into the future development of the PLC. The difference PLCs make can be judged in three ways.

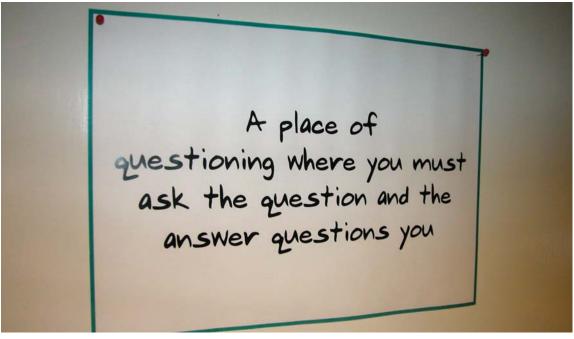

- 1 Ultimately an effective PLC makes a difference to pupil outcomes. Our research found evidence of this¹, and while this is difficult to assess, it's vital to keep this in mind as the bottom line and be considering what evidence you have of this.
- 2 An effective PLC also makes a difference to staff morale and practice and should help to build leadership capacity throughout the school.
- 3 A PLC is also effective when all of the characteristics are in place and the processes are operating smoothly as a matter of course in order to sustain the PLC.

Purpose of this activity

This activity is designed to help you:

- assess where you have had an impact that you can attribute to attention you have paid to developing your PLC
- give examples of the evidence you have to demonstrate that this is the case

Asking questions is at the heart of this activity. 'Inquiry mindedness'2 is also centrally important to professional learning communities; a need to understand better what you are doing, to whom it makes a difference and how. One of the headteachers in the project had a poster on her door which exemplified this.

Notice on headteacher's door

How can you use this activity?

Work collaboratively to complete the following charts to answer four questions.

Question 1: What is the overall impact?

Using the scale of 4=high and 1=low, rate the extent to which you feel your efforts to develop a professional learning community have had an impact on:

- a each of the eight characteristics of professional learning communities (write in the numbers at the top of Evaluation Grid A)
- b staff and leadership practice (write in the numbers at the top of Evaluation Grid B)
- c pupil outcomes (write in the numbers at the top of Evaluation Grid B)

Question 2: What is the evidence of impact on your PLC's characteristics?

The eight characteristics of professional learning communities identified in our research are listed as headings at the top of *Evaluation Grid A*. For each characteristic where you feel you have had a positive impact, write down in the grid *specific evidence* you have of particular processes you have used that you think have contributed to the positive impact. We have given some examples of the kind of processes that we found in our project in the vertical column in the framework, but you will find others on the resource card, *What is a professional learning community? A summary* in the introductory source materials.

We suggest that you focus on each process in turn, first reflecting on what actions you took and then considering how the action impacted on the different PLC characteristics. For example, under 'optimising resources and structures', if the allocation of rooms were changed so that each subject department, several year groups/grades or a key stage group had classrooms close together, what effect has this had on staff collaboration on learning? Has it increased? You may well have done additional things that you would categorise under each process. You can add these at the bottom of the grid.

Question 3: What is the evidence of the characteristics' impact on outcomes?

Using Evaluation Grid B, first answer questions 1b) and 1c) rating the impact you feel your efforts have had on staff, leadership and pupil outcomes. Then, for each area of staff and leadership practice and each pupil outcome where you feel your work in developing a PLC has had a positive impact, write down in the grid specific evidence you have of links between specific characteristics and these outcomes.

Question 4: What can you learn from this, and how will you apply your learning?

Having gathered the evidence, review it and ask yourselves questions about what you can learn from the data and how you intend to apply this learning to your processes of PLC development in order to enhance impact even further. There is a sheet at the back where you can make notes on your dialogue and decisions.

	Mutual trust, respect and support			
	Inclusive membership			
	Openness, networks and partnerships			
	Individual and group learning			
	Reflective professional enquiry		ing on PLC processes	
	Collaboration focused on learning		Question 2: Examples of evidence of impact on each PLC characteristic as a result of working on PLC processes	
-	Collective responsibility for learning			
Characteristics	Shared values and vision			
Evaluation Grid A – Characteristics		Question 1a: Rating of level of impact 4=high, 1=low	Question 2: Examples of evidence	optimising resources and structures to promote the PLC eg use of time, space, communication

Evaluation Grid A – Characteristics	Characteristics							
	Shared values and vision	Collective responsibility for learning	Collaboration focused on learning	Reflective professional enquiry	Individual and group learning	Openness, networks and partnerships	Inclusive membership	Mutual trust, respect and support
Question 2: Examples of evidence	ce of impact on ϵ	Question 2: Examples of evidence of impact on each PLC characteristic as a result of working on PLC processes	ic as a result of work	king on PLC processe	10			
Promoting professional learning eg co-ordinating continuing professional development; arranging joint learning activities with network partners								
Evaluating and sustaining the PLC eg consciously working on developing PLC processes; monitoring the process, progress and impact of the PLC								

_				
	Mutual trust, respect and support			
	Inclusive membership			
	Openness, networks and partnerships			
	Individual and group learning			
	Reflective professional enquiry	ing on PLC processes		
	Collaboration focused on learning	Question 2: Examples of evidence of impact on each PLC characteristic as a result of working on PLC processes		
	Collective responsibility for learning	ach PLC characterist		
Characteristics	Shared values and vision	e of impact on ea		
Evaluation Grid A – Characteristics		Question 2: Examples of evidence	Leading and managing to promote the PLC eg developing and spreading a learning vision and focus; building trust; distributing leadership	Other things you have done that have made a difference

Evaluation Grid B	Staff an	Staff and leadership practice outcomes	utcomes			Pupil outcomes	
	Staff morale	Staff learning and teaching practice	Leadership capacity throughout the school/centre/college		Attitudes, attendance and well-being	Engagement with learning	Academic progress and achievement
Question 1b : Rating of level of impact 4=high, 1=low				Question 1c : Rating of level of impact 4=high, 1=low			
Question 3: Examples of evidence	Question 3: Examples of evidence of the characteristics' impact on outcomes	mpact on outcomes					
Shared values and vision							
Collective responsibility for learning							
Collaboration focused on learning							
Reflective professional enquiry							

Staff learning and teaching practice
Question 3: Examples of evidence of the characteristics' impact on outcomes

Question 4: What can you learn from this, and how will you apply your learning?

Learning from the data What do these data tell you about your efforts to develop your professional learning community? Are you more successful in certain areas of PLC development than in others? Have you had a greater impact on certain aspects of your school, centre or college and on certain groups than others? What else do you need to know, and how might you find this out?

Applying your learning
What should you continue doing?
What should you start doing and how might you go about this?
What should you stop doing?
